

Heart Treat Box

1. Cut out the Heart Box and the embellishments on the solid lines.
2. Punch holes at the top of the heart and in the top of the tag and key.
3. Score on the dotted lines.
4. Attach the two side flaps with permanent adhesive, overlapping them.
5. Attach any desired embellishments. (We attached a ruffle made from tissue paper to the inside top edge of the hearts. To do this we cut a strip of tissue paper 1 1/2" x approx 24" long. Piece it together if necessary. Fold the tissue paper accordian style and attach it to the inside of the heart using permanent adhesive or glue).
7. Attach the keyhole to the front of the box with double sided foam mounting tape.
8. Place the cookie or treats inside a crystal clear bag and tie the top with ribbon. Attach the tag and key to either the goodies, or to the front of the Heart Box.
