

Gift Bag - Side 1

Gift Bag - Side 2

Instructions

1. Cut out the sack parts, cutting on the solid lines (cutting away the black line). Cut out the embellishment images, leaving a narrow white border around the images.
2. Score the sack pieces on all the dotted lines.
3. Fold the sack along the scored lines. The "Y" shaped gussets fold inward, like a grocery sack.
4. Cut out the window area of the sack.
5. Cut a piece of clear acetate (our item number AC33). Cut the acetate 1/4" larger (all the way around) than the window opening. Tape the acetate to the back side of the window opening.
6. Apply Versa Tape to the flap marked "Side Flap", applying the tape to the printed side of the flap. Remove the backing from the Versa Tape.
7. Adhere both side flaps to the unprinted side of the Gift Bag - Side 2 piece, forming a "tube" shape.
8. Place two 4 1/2" long pieces of Versa Tape to the unprinted side of the two larger Bottom Flaps that have rounded edges. Remove the backing from the Versa Tape.
9. Fold the two smaller Bottom Flaps over. Fold the larger, rounded corner Bottom Flaps over, adhering them to the smaller Bottom Flaps with the Versa Tape. Press firmly to secure.
10. Punch two 1/4" holes in the center of the Top Flap, punching them 1" apart. Thread a ribbon through the holes and tie in a bow.
11. Remove the backing from the "hook" side of a Velcro® dot. Attach the dot to the back (unprinted) side of the Top Flap, centering it. Remove the backing from the "loop" side of a Velcro dot and attach the loops to the hooks on the Velcro dot you already attached to the Flap. Fold the flap over so the loop dot attaches to the front of the sack. Carefully open the sack to fill it with goodies.
12. Attach the embellishment images to the front of the sack with double sided foam mounting tape.
13. Apply glitter glue as desired.
14. Attach buttons or any other embellishments desired.
